

A Tribal Navigator is Available!

We all need help sometimes. There are lots of programs and services available to help with staying healthy, independent, and included in our communities. Programs and services are not always easy to access, and the process can be confusing and complicated. That's why The Next Door, Inc.'s Native Supports program has partnered with the Oregon Department of Human Services, Office of Aging and People with Disabilities to provide a Tribal Navigator.

What can a Tribal Navigator help with?

- Exploring what services are available
- Explaining what the process of applying for services will be like
- Filling out application forms
- Support and advocacy while working with Oregon Department of Human Services staff
- Coordinating services with the Tribe, Oregon Department of Human Services, and any other community partner organizations
- And more!
